INDEX

A

Allen, Bengt J., see Lindsay Fitzgerald-DeHoog, 205
Anesthetizing solar-powered sea slugs for photobiological studies, 328

B

Baeza, J. Antonio, see J. E. Hernández, 278
Bayer, Kristina, see Janine Kamke, 30
Becker, Pierre T., Aurélie Lambert, Annabelle Lejeune, Déborah Lanterbecq, and Patrick Flammang, Identification, characterization, and expression levels of putative adhesive proteins from the tube-dwelling polychaete *Sabellaria alveolata*, 217
Bell, Fernanda Tinti, see Sarah Ribeiro Milograna, 178
Biological Bulletin Virtual Symposium: Discoveries in animal symbiosis in the "omics" age, 5
Blackstone, Neil W., see Austin P. Parrin, 245
Bolaños, J. A., see J. E. Hernández, 278
Bomar, Lindsey, and Joerg Graf, Investigation into the physiologies of *Aeromonas veronii in vitro* and inside the digestive tract of the medicinal leech using RNA-seq, 155
Bosch, Thomas C. G., What *Hydra* has to say about the role and origin of symbiotic interactions, 78
Bower, John R., Katsunori Seki, Tsunemi Kubodera, Jun Yamamoto, and Takahiro Nobetsu, Brooding in a gonatid squid off northern Japan, 259
Brady, Aisling K., see J. Daniel Hilton, 291
Brooding in a gonatid squid off northern Japan, 259
Bross, Lori S., see Austin P. Parrin, 245
Browning, Jeremy, see Lindsay Fitzgerald-DeHoog, 205
Bulgheresi, Silvia, see Kristen E. Murfin, 85
Burns, Adam R., see Michael J. Taormina, 7
Byrne, Maria, see Kennedy Wolfe, 236

C

Calado, Ricardo, see Sónia Cruz, 328
Castro, Diego A., and Robert D. Podolsky, Holding on to a shifting substrate: plasticity of egg mass tethers and tethering forces in soft sediment for an intertidal gastropod, 300
Chaston, J., and A. E. Douglas, Making the most of "omics" for symbiosis research, 21
Collin, Rachel, and Abby Spangler, Impacts of adelphophagic development on variation in offspring size, duration of development, and temperature-mediated plasticity, 268
Community ecology and the evolution of molecules of keystone significance, 167
Correction for Volume 223, pp. 123–137, in the article titled "Origins and evolutionary flexibility of chemosynthetic symbionts from deep-sea animals." 223(3), x
Cruz, Sónia, Gisela Dionísio, Rui Rosa, Ricardo Calado, and João Serôdio, Anesthetizing solar-powered sea slugs for photobiological studies, 328

D

Development under elevated pCO_2 conditions does not affect lipid utilization and protein content in early life-history stages of the purple sea urchin, *Strongylocentrotus purpuratus*, 312
Devine, Susan P., Karen N. Pelletreau, and Mary E. Rumpho, 16S rDNA-based metagenomic analysis of bacterial diversity associated with two populations of the kleptoplastic sea slug *Elysia chlorotica* and its algal prey *Vaucheria litorea*, 138
Dillman, Adler R., see Kristen E. Murfin, 85
Dionísio, Gisela, see Sónia Cruz, 328
Douglas, A. E., see J. Chaston, 21
Dubilier, Nicole, see Jillian M. Petersen, 123, x

E

Editorial, 257
Edmunds, Peter J., Hollie M. Putnam, and Ruth D. Gates, Photophysiological consequences of vertical stratification of *Symbiodinium* in tissue of the coral *Porites lutea*, 226
The enigmatic life history of the symbiotic crab *Tunicotheres moseri* (Crustacea, Brachyura, Pinnotheridae): implications for its mating system and population structure, 278
Evans, Rebekah C., On selling and over-selling science, 257
Exploring symbioses by single-cell genomics, 30
